

a1
amend
automatically request a code to enable video play to be resumed at a later time.

Please amend claim 4 as follows:

a2
4. (Amended) A video transmission system comprising:
a video transmitter that transmits video to a plurality of receivers for display at a later time; and
a controller that transmits decryption information to said receivers to enable video upon request, said controller receives a request for a code to enable the play of video to be paused and to be resumed at a later time, and in response said controller automatically provides said code.

Please amend claim 10 as follows:

a3
10. (Amended) A [video transmission] method comprising:
storing encrypted video in a receiver; [and]
requesting a decryption key for said stored video;
playing said video;
receiving a request to pause said play of video; and
automatically requesting a code to enable said video to be played at a later time.

Please amend claim 14 as follows:

a4
14. (Amended) A video distribution method comprising:
storing video for selection by the recipient; [and]
upon request by the recipient, allowing the recipient to select for viewing a stored video [videos];
playing said video; and
in response to a request to pause the play of said video, automatically requesting a code to enable play to be resumed at a later time.

Please amend claim 16 as follows:

16. (Amended) An article comprising a medium for storing instructions that cause a processor based system to:

store video for selection by the recipient; [and]

upon request by a recipient, allow the recipient to select, for viewing, video previously stored;

play said video; and

in response to a request to pause the play of said video, automatically request a code to enable play to be resumed at a later time.

05
[Please amend claim 17 as follows:]

17. (Amended) An article comprising a medium for storing instructions that cause a processor based system to:

store encrypted video to a receiver; [and]

request a decryption key, for said stored video;

play said video;

receive a request to pause said play of video; and

automatically request a code to enable said video to be played at a later time.

Please add the following new claims:

06 cont
--21. (New) The system of claim 4 wherein said controller transmits an acknowledgement number to a receiver in response to a request for a code to enable the play of video to be paused and to be resumed at a later time.--

--22. (New) The method of claim 10 further including receiving an acknowledgement number and using said acknowledgement number to resume the play of video.--
